

THINGS TO THINK ABOUT WHEN ADOPTING AN OLDER PET

- Make sure it's the right thing to do as adopting a pet is life changing.
 - Learn about the cat or dog and their breed.
 - Find out about their past, if possible as they'll have their own personality.
 - Make sure your lifestyle will suit your new pet as they will have their own needs.
 - Be prepared for potential health problems and their effect on your finances and lifestyle.
 - Help your new pet settle into their new home so they don't feel overwhelmed.
 - Remember, your pet might act differently once at home as they're used to a different environment.
 - Above all else, be kind and patient as it's a confusing time for your new pet.
- Pet bed.
 - Suitable toys.
 - The right sized bowls for food & water.
 - Suitable food to cater for their diet.
 - Treats.
 - A suitable collar & lead.
 - Updated the collar tag (remember - don't put their name on it).
 - Update their microchip info.
 - A new toothbrush.
 - A suitable brush for grooming.
 - Choose a suitable travel restraint.
 - Think about pet insurance.

...OH, AND
DON'T FORGET
YOU MIGHT
